

## JURY LONG TIME ON ITS VERDICT

Retired at 6 O'Clock, but Had Reached No Decision in Freeman Case at Nine.

### ALL SORTS OF OPINIONS

MANY THOUGHT THAT THE JURY WOULD DISAGREE — FREEMAN CONFIDENTLY EXPECTS TO BE ACQUITTED.

At 10 o'clock last night, the jury in the case of the State of Indiana against Albert Freeman, charged with assaulting B. B. Williams, with intent to murder, had not reached a verdict, and it was announced that should the jurors reach an agreement before morning, Judge Fox would not receive a verdict until the convening of court at 9 o'clock today.

The defense rested its case yesterday afternoon and the argument of Prosecutor Jessup and Attorney Byron C. Robbins, representing the defendant, occupied two hours. The jury received its instructions from Judge Fox and retired about 6 o'clock. By many it was expected that a verdict would be reached quickly and for this reason there were numerous hangers-on in the courtroom. As time elapsed without a sign of life from the jury room, there were all sorts of opinions expressed, chief of which being that the jury would disagree. It was expected, however, by both attorneys in the case, that whatever the result, there likely would be some time occupied by the jury in reaching its verdict. Freeman confidently expected that he would be acquitted when he left the court room to be taken back to jail to await the result. Prosecutor Jessup, however, felt that the State's case had been a plain one and that the defendant would be convicted on the evidence presented.

At the Iroquois Club. The senator was introduced by President Eckert. He was loudly cheered and, when he referred to his attitude on the negro question, was greeted with cries of "We are with you, Senator." "I shall say whatever I please," said Tillman, when Mrs. Keeler suggested that it might be safer for him not to allude to the race question. "I'm not going to suit my remarks to the demand of a committee of negroes. They may express their opinion of me and I'll tell what I think of them."

## TUBERCULOSIS, THE TOPIC

GOOD MEETING WAS HELD

Drs. Davis and Bond Talk to Joint Gathering of the Anti-Tuberculosis League and the Tuesday Club at Library.

The Anti-Tuberculosis league, of this city and the Tuesday Club met in joint session last night at the Morrison-Reeves library where two very interesting and instructive papers were read by Dr. T. Henry Davis and Dr. Edgar S. Bond, both of which pertained to the prevention and spread of the white plague.

Dr. Davis stated that the Tuberculosis commission appointed Governor Hanly to investigate the advisability of establishing a state hospital for the cure of consumptives, would make a report to the legislature and owing to the firm backing which the commission is receiving at the hands of Governor Hanly, a new \$200,000 hospital will probably be built.

Dr. Davis took occasion to highly compliment the Richmond organization for its stand on the question, which was one uppermost in the minds of the people of America today.

The local association drew up resolutions and highly recommended to the legislature that the new state hospital be established.

In his speech, Dr. Bond, who was aided by the use of the stereopticon views loaned through the kindness of the state board of health, showed the gradual growth of consumption and also views of various state hospitals for consumptives that have been established throughout the United States. His talk was very interesting.

The association recommended that committees be appointed to visit the people about Richmond who are afflicted with the white plague and warn them as to the proper manner in which to care for their spittle which is said to be the real source of the spread of consumption.

## HAS 2 SPECIAL MESSAGES ONE DEALS WITH CANAL

Congress to Hear Some Suggestions From the President, Growing Out of His Visit to Panama—One on Porto Rico.

[Publishers' Press.] Washington, Nov. 27.—President Roosevelt is preparing two special messages to congress. He expects to have one or both submitted to congress within a fortnight. One relates to the canal zone and the other to Porto Rico.

The first message dealing with affairs upon the Isthmus is now having the finishing touches put upon it. The other message, which will be much shorter, will be sent to congress as soon as it can be prepared.

The president will urge the enactment of legislation which he considers of vital necessity to the speedy and economical completion of the Panama canal.

Among the recommendations relating to Porto Rico will be his advocacy of an enactment conferring American citizenship upon the Porto Ricans.

## PRESIDENT TELLS ABOUT THE NAVY

Cabinet Listens With Interest While Roosevelt Speaks of His Trip.

DESCRIBES SAILORS' SHOW PERFORMANCE GIVEN ON BOARD LOUISIANA THOUGHT WAS ONE OF THE BEST HE EVER SAW ANYWHERE.

[Publishers' Press.] Washington, Nov. 27.—President Roosevelt's enthusiasm over the superiority of the American navy found expression today in the shape of glowing accounts of the sea trip on the battleship Louisiana to Panama and Porto Rico. It was almost the sole topic of conversation at the meeting of the cabinet.

There was not a hint of sea sickness. The weather was delightful and the waters comparatively smooth. Perhaps the jolliest incident of the voyage was an entertainment on board the Louisiana on the evening of November 22. It was a show planned and produced and managed by the enlisted men. The President, Mrs. Roosevelt and other members of the party, the officers of the ship and the non-participating jacks constituted the audience. The stage was built at the extreme end of the stern deck and was fitted with electric lights, curtains, drops and all proper accessories for giving the first class theatrical performance. The guests of honor and the officers were given seats down in front. Behind them on the deck and on the turrets, the bridge and even the fighting tops the sailor boys were crowded.

Tells of the Show. In speaking of this performance today the President said: "It was one of the best shows I ever saw in my life and it would have done credit to professionals."

The president said the show ended with three good rattling boxing matches. Only two were on the original program, but they threw in one more for good measure," he explained. "Were there any knockouts?" one of the president's friends asked. "I should say not," explained the president. There couldn't have been for the boxers were too tough. But I tell you they were well worth seeing."

Speed of the Vessels. The president says that it was off Hatteras when the Captain of the Louisiana "let her out" and speed of eighteen and a half knots was reached. The cruiser Washington dropped behind, but the Tennessee "simply played with the Louisiana" as the President expressed it. To show her going powers, the Tennessee came up abreast of the Louisiana dropped far to the stern, steamed in wide arcs off to either side and then came up again even with her nose. "I believe that every ship in the new navy can show much better than her contract speed," said the president, in discussing the performances of the squadron. "And I believe as firmly as I believe I am sitting here that you can't find the equals of our sailors, officers and enlisted men in any navy afloat."

Don't Appraise Navy Justly. The president said he thought very few laymen appraise the navy at quite its proper value. They think it pretty good that after thirty years in uniform a man can retire on \$900 a year. "How many railroad men can be as certain of a sure income of that amount after they have grown gray from their work?" he asked.

There was very little of the battleship that the president didn't inspect. He took dinner with the petty officers and attended a meeting in the warrant officers' club down near the keel. He made a speech of congratulation to the officers and crew and says he was surprised and delighted to discover that the gunners on the battleship have a brand new method of loading the six-inchers. He could not tell what it was because he was pledged to secrecy.

HAGERSTOWN. Hagerstown, Ind., Nov. 27, (Spl.)—Messrs Joe and Will Teeter spent Sunday in Centerville.

### LIQUOR LICENSE RAISED

Trustees of Vallejo Respect the Demands of Secretary Bonaparte of the Navy.

[Publishers' Press.] Washington, Nov. 27.—Secretary Bonaparte received word from the mayor of Vallejo, Cal., stating that by unanimous vote of the trustees of that city adjacent to Mare Island navy yard the fee liquor licenses will be raised Jan. 1 from \$30 to \$400 per year. Beginning at the same time saloons will be required to close at 1 a. m. and no all-night saloons will be licensed. After April the number of saloons will be reduced to 60. Undesirable conditions at Vallejo made it necessary for the navy department to warn the town several weeks ago that ships could not be sent to Mare Island navy yard if the crews were to be thrown into the unwholesome atmosphere then prevailing at Vallejo.

Cabinet Meeting. Washington, Nov. 27.—Secretary Metcalf went to the cabinet meeting with a big portfolio which it was generally supposed, contained his report on the situation growing out of the alleged discrimination against Japanese in the schools of San Francisco. This report was one of the most important matters discussed at the cabinet meeting for the first time since the beginning of the political campaign. Much time was devoted to listening to the president's story of his trip to Panama and conditions there.

Offended by Shaw. Pittsburg, Pa., Nov. 27.—President English of the chamber of commerce said he would appeal to President Roosevelt for the attitude assumed by Secretary of Treasury Shaw as the hearing to reconsider the sites of a new postoffice. The secretary objected to the use of the word "graft," shook his finger under the nose of President English and said that it was his belief that English and other officials of the chamber of commerce were "interested."

## MURDERER YET AT LARGE

Officers Give Up Hope

Many Suspects Arrested in Connection With Dona Gilman Murder All Able to Prove an Alibi—Expert Detectives to be Used.

Dayton, O., Nov. 27, (Spl.)—With several suspects under arrest, as many previously caught and freed, the Montgomery county constabulary, Coroner Kline and a force of amateur detectives, have given up almost all hopes that the arrest and conviction of the slayer of Dona Gilman will ever take place. The investigation by the coroner has only increased the obscurity of the cloud of mystery that shrouds the crime.

It is very likely that action will be taken to bring expert detectives to Dayton, but such action will be kept a profound secret, the desire being not to harass any work upon the case by public knowledge. The last man to be arrested is Wm. Partion a veteran of the Spanish-American war whose face is bruised and both eyes blackened. He does not tell how he received his injuries. He is said to have been seen near the scene of the murder about the time of its commission. He claims that he can prove an alibi.

GREENSFORK. Greensfork, Ind., Nov. 27, (Spl.)—Mrs. Lee Reynolds is teaching for Miss Blanche Kerr, who has been quite sick for a week.

Ernest Scruggs and family have moved into the property vacated by Florence Snyder.

John Haller and family have moved to New Castle.

Miss Ethel Harvey returned to her home in Centerville Sunday, after a visit with Miss Carrie Byrd.

## AGGREGATE DEBT RUNS TO MILLIONS

RECOMMENDATIONS MADE

SHOWS THAT THERE IS A RAPID GRAVITATION OF POPULATION TO THE URBAN CENTERS—SELF GOVERNMENT PROBLEM.

[Publishers' Press.] Washington, Nov. 27.—Much of the work of the census bureau during the past year, as disclosed by the annual report of S. N. D. North, the director, related to the manufacture of 1905, to the preparation and publication of statistics on municipal finance and to the collection, tabulation and publication of reports on the cotton crop. The report shows that the work cost the government \$1,249,045, that sum being \$235,867 less than congress appropriated for it.

In connection with the annual municipal reports is planned a series of statistical studies of important phases of municipal development, including parks, markets, paving, sewers, police and fire departments, baths, schools and libraries. The importance of statistics of this character is indicated, the report says, by the fact that the present aggregate debt of cities of the United States containing over 8,000 inhabitants is in excess of \$1,600,000,000, or "greater than that of the combined debt of the national and state governments and of the counties, school districts and other minor civil divisions."

In 1900 33 per cent. of the people of the United States resided in cities having a population of 8,000 and over; in a few decades over half the people will reside in those cities. The problem of self-government is therefore becoming one of city government."

The director advocates the taking of a quinquennial census of agriculture. The report says concerning the cotton reports that it has been the earnest desire of the bureau to bring its system of reporting to the highest possible degree of efficiency. Director North recommends the enactment of more rigid laws to enable census officers to secure information. Copies of census publications to the number of 666,668 were distributed during the year, 200,745 being bulletins, and 399,000 cotton reports of the permanent census.

GOLDEN USES HIS GUN NO ONE HURT, HOWEVER

Patrolman Fires to Stop Earl Huntington, Who Made Tracks Toward Freedom as Fast as He Could Go.

Earl Huntington added the experience of being shot at by a policeman to his varied career last night. Earl as he has often done before and frequently with ill effect, went to the home of his father-in-law, John Campbell on East Main street and raised a disturbance. Officer Golden told Huntington that to leave the place and tend to his own affairs. Huntington gave the officer a piece of his mind and received a well planted blow. Probably fearing arrest, Huntington broke away and ran. Officer Golden quickly pulled his gun, shot twice and then with a sigh, so a bystander says, turned about, folded his arms and sighed, "he's gone."

## KAISER'S SON CENSURED

[Publishers' Press.] Berlin, Nov. 27.—Absolute denials that Prince Eitel Fritz, the Kaisers second son, sent a cablegram of sympathy to Caruso, have failed to convince the German public.

The Prince has hitherto been the most popular member of the Prussian royal family but the Kaiser's threats to win him very general dislike. The Berlin press, totally regardless of the denial is flaying him for "impulsiveness and tactlessness," while the only excuse is on the ground of parental example in the blundering use of the telegraph.

The Kaiser himself is said to be annoyed, his policy being to refrain rigidly from any act or speech likely to offend American susceptibilities.

### One Man Whole Show.

Gay New York, the musical comedy which played at the Gennett theatre last night was all that their press agent claimed for it "a mirth provoker" and as far as the music was concerned it was nothing higher than the ordinary, heard among the lighter of the musical comedies, on the stage at the present time. The one original song hit of the night was "A Message from Mars" as sung by Lillian Horlein and company. It was a tuneful creation and made a hit with the small audience present. The song "Hinky Dee" which has been sung with different lyrics for the past several years by all kinds of companies, made a hit with the audience last night in the hands of Harry Emerson, the irresistible comedian. In truth Harry Emerson was about the whole show, and his genuine and mirth provoking German manners, were greatly enjoyed.
